South Bank Lamp-O Results.

Firstly, thanks for everyone for turning up at late notice and in chilly weather.

Secondly, thanks for your patience in waiting for results, it turns out it's trickier to read handwriting than I remember and I had to have several of the results double checked!

It was a very close event in the end, with Leon visiting the most controls but a late time penalty and a couple of incorrect answers meant that James overtook him at the top of the table. Well done James!

Only 2 controls were not visited, 17 and 29, this surprised me as I thought 28 was the biggest turkey of the lot!

Next time out we will explain a bit better what is needed from the non-lamppost controls as the postboxes seemed to cause some confusion!

Thursday 20th December is our next Lamp-O event, meeting at the Lighthorseman Pub in Fulford at 6.15pm for a 6.30pm mass start – check the flyer for details (and the opportunity to book dinner.) See you there!
